**Subject:** SB 776

Governor Snyder and any other elected official responsible for AGENDA:

SB 776 (Sen. Robertson) Elections; petitions; petition signature rebuttal presumption; eliminate. OR ANY BUSINESS PROPERLY BEFORE THIS COMMITTEE:

SB 776 will get a hearing in the House Judicial Committee tomorrow. This bill has been passed by the Senate and if passed by the House, Governor Snyder will sign it. This bill aims to circumvent election laws to disqualify MILEGALIZE from the November ballot.

- 1) don't pass Sb 776
- 2) don't put it into immediate effect
- 3) a one year time limit is more reasonable but.....
- 4) how can the Government change the time limit at all when statutory initiatives are governed by the Michigan Constitution....
- 5) why doesn't the legislature just legalize cannabis and fix the roads and fund the schools themselves?

The government work for us the constituents of michigan! We are tired of the michicant government catering to the judicial, corporate, pharmaceutical, and other lobbyist whom seeks to protect their profits and impose their moral will upon the people of michigan regarding cannabis, marijuana, and hemp.

We are tired of chain letters informing us that you are nor prepared to deal with this issue at this time. While you are showing how fast the legislature can resolve their agenda against Cannabis-hemp and the peoples' freedoms when you want too!

We whom responsible wish to utilize: cannabis , hemp , marijuana do so not only to get high, although that side effect is great and less harmful than alcohol; We wish to legally create business, employment, and tax paying jobs to add revenue to the state of michicants tax funds. let alone income for michigan citizens.

We demand our freedom to create a society that utilizes Cannabis and hemp to end the dependence on the polluting practices of such as the petroleum industry !! ask marshall , mi about their oil s pill.

We demand freedom from a judicial system that would rather arrest peaceful cannabis growers and users than go after violent criminals. We are not your judicial systems cash cow!

We demand freedom from harmful pharmaceutical drugs and their side effects.

We demand freedom to build a better society from a renewable resource Hemp-Cannabis marijuana!

Which is far less polluting and damaging to the only planet that we have to live on.  
Anything oil can do hemp can and will do better.

You, our elected officials, have shown thru these actions regarding cannabis, the actions taken against the medical, marijuana act of 2008, and the recent debacle in flint , michican among others: that you, our elected officials ,are incapable of respecting the will and votes of the people of michigan .

That you!, our elected officials, are incapable of running the government for the good of michigans citizens and only regard or care about what is good for the corporate state of Michicant!

No on senate bill 0776! For the sake of god and the freedoms of those whom wish to utilize this plant.

Sincerely,  
The cannabis community of Michigan!
